

Three Days Workshop
On
*Statistical Techniques for Quality
Management Professional*
[Only for certified BB/MBB]

During March 22-24, 2019

Why this program:

The content of BB/MBB covers some of the Statistical/ Analytical topics required for product/ process development using proprietary software. The area generally looked is operations. However, the recent trend is application of machine learning algorithm and artificial intelligence using open source software (e.g., R/ R studio) in this area. Also the borderline between Business Excellence (BE) and Business Analytics (BA) is diminishing. Hence this program is planned to have an interaction among the quality management professional and providing necessary input required in this area.
